Question Type: mcq_single

1. What does the student need to bring to the appointment?

- A. Passport
- B. Notebook
- C. Calculator

Answer: A

Question Type: mcq_single

2. Why is the library closing early today?

- A. Staff training
- B. Building repairs
- C. A public holiday

Answer: A

Question Type: mcq_single

3. Where will the meeting take place?

- A. Room 12
- B. The cafe
- C. The main hall

Answer: C

Question Type: mcq_single

4. What time does the workshop begin?

- A. 9:15
- B. 9:30
- C. 10:00

Answer: B

Question Type: mcq_single

5. What is the speaker's main concern?

- A. The price
- B. The deadline
- C. The location

Answer: B

Question Type: mcq_single

6. Which item has already been paid for?

- A. Textbook
- B. Exam fee
- C. Bus pass

Answer: B

Question Type: mcq_single

7. What will the tutor send by email?

- A. A reading list
- B. A timetable
- C. A feedback form

Answer: A

Part: Listening 2

Section: Listening

Question Type: mcq_single

8. Conversation 1: What does the man want to change?

- A. His course time
- B. His address
- C. His password

Answer: A

Question Type: mcq_single

9. Conversation 1: What does the woman ask him to provide?

- A. Student ID
- B. Photo ID
- C. Payment receipt

Answer: A

Question Type: mcq_single

10. Conversation 2: Why did the class move rooms?

- A. Projector issue
- B. Noise outside
- C. Large group size

Answer: C

Question Type: mcq_single

11. Conversation 2: Where should students wait?

- A. Reception

B. Room 4

C. The courtyard

Answer: B

Question Type: mcq_single

12. Conversation 3: What is the customer buying?

A. Headphones

B. A charger

C. A keyboard

Answer: B

Question Type: mcq_single

13. Conversation 3: What discount is available?

A. Ten percent

B. Fifteen percent

C. Twenty percent

Answer: A

Question Type: mcq_single

14. Conversation 4: What does the speaker recommend?

A. Booking early

B. Travelling by taxi

C. Changing hotel

Answer: A

Question Type: mcq_single

15. Conversation 4: Which day is busiest?

A. Friday

B. Saturday

C. Sunday

Answer: B

Question Type: mcq_single

16. Conversation 5: What problem does the student report?

A. Missing marks

B. Wrong name

C. Lost card

Answer: A

Question Type: mcq_single

17. Conversation 5: When will it be fixed?

- A. Today
- B. Tomorrow
- C. Next week

Answer: B

Question Type: fill_blank

18. The tour begins at {{blank}} in the morning.

Answer: nine|9

Question Type: fill_blank

19. Students must bring a {{blank}} for identification.

Answer: passport

Question Type: fill_blank

20. The first stop is the {{blank}} building.

Answer: science

Question Type: fill_blank

21. Lunch will be served in the {{blank}}.

Answer: garden

Question Type: fill_blank

22. The afternoon activity is a {{blank}} workshop.

Answer: writing

Question Type: fill_blank

23. Questions should be sent by {{blank}}.

Answer: email

Question Type: fill_blank

24. The visit ends near the main {{blank}}.

Answer: gate

Part: Listening 4

Section: Listening

Question Type: mcq_single

25. What is the discussion mainly about?

- A. Choosing research methods
- B. Planning a sports event
- C. Reviewing a film

Answer: A

Question Type: mcq_single

26. Why does Maya prefer interviews?

- A. They reveal opinions
- B. They are cheaper
- C. They take less time

Answer: A

Question Type: mcq_single

27. What weakness does Ravi mention?

- A. Small sample size
- B. Unclear deadline
- C. Old equipment

Answer: A

Question Type: mcq_single

28. Which source will the group check next?

- A. A journal article
- B. A news report
- C. A lecture slide

Answer: A

Question Type: mcq_single

29. What does the tutor suggest adding?

- A. A comparison table
- B. A personal story
- C. A longer title

Answer: A

Question Type: mcq_single

30. What will the group do before Friday?

- A. Revise the proposal
- B. Collect all data
- C. Submit the final report

Answer: A

Part: Reading 1A

Section: Reading

Question Type: mcq_single

31. The committee's findings were largely _____ with those of the earlier study, which strengthened confidence in both sets of results.

- A. consistent
- B. persistent
- C. insistent
- D. resistant

Answer: A

Question Type: mcq_single

32. Rather than stating her objection openly, she chose to _____ her disagreement in a series of carefully worded questions.

- A. announce
- B. veil
- C. broadcast
- D. inflate

Answer: B

Question Type: mcq_single

33. The report was criticised for relying on _____ evidence - a handful of memorable stories rather than systematic data.

- A. empirical
- B. statistical
- C. anecdotal
- D. theoretical

Answer: C

Question Type: mcq_single

34. Funding for the project was _____ on the team publishing its interim results by the end of the year.

- A. contingent
- B. reluctant
- C. redundant
- D. abundant

Answer: A

Question Type: mcq_single

35. Although the two theories appear similar, a closer reading reveals a _____ but important difference in how each defines value.

- A. blatant
- B. subtle
- C. drastic
- D. profound

Answer: B

Question Type: mcq_single

36. The museum's new wing was designed to _____ the original building rather than compete with it.

- A. complement
- B. compliment
- C. compensate
- D. compile

Answer: A

Reading Passage:

Rethinking the office For most of the twentieth century, the open-plan office was presented as a straightforward improvement on the private room. Removing walls, it was argued, would encourage the informal exchanges from which good ideas (1) _____. Employers were also drawn to the lower cost per employee. Recent research has complicated that picture. When one firm converted two floors to open plan, face-to-face interaction (2) _____ by roughly seventy per cent, while email traffic rose. Rather than talking more, staff appeared to retreat behind headphones and screens. The explanation may lie in privacy. In a room with no barriers, a conversation is (3) _____ to everyone within earshot, and workers seem to compensate by having fewer of them. Concentration suffers too: studies of interrupted work suggest it can take twenty minutes to (4) _____ full focus after a distraction. None of this means the open plan should be abandoned. It suggests instead that a single layout is unlikely to suit every kind of work, and that offices should offer a (5) _____ of spaces - quiet rooms for concentration alongside open areas for collaboration.

Question Type: mcq_single

37. Choose the best option for gap (1).

- A. emerged
- B. emerge
- C. emergency

Answer: B

Question Type: mcq_single

38. Choose the best option for gap (2).

- A. reduced
- B. lessened
- C. declined

Answer: C

Question Type: mcq_single

39. Choose the best option for gap (3).

- A. audible
- B. audio
- C. auditory

Answer: A

Question Type: mcq_single

40. Choose the best option for gap (4).

- A. return
- B. restore
- C. regain

Answer: C

Question Type: mcq_single

41. Choose the best option for gap (5).

- A. row
- B. range
- C. rank

Answer: B

Part: Reading 2

Section: Reading

Reading Passage:

Citizen science Citizen science - research carried out with the help of volunteers - has grown rapidly over the past two decades. {{blank:1}}, the practice is far from new: amateur naturalists were recording bird migrations and rainfall long before the term was coined. What has changed is scale. {{blank:2}} smartphones and online platforms, a single project can now gather millions of observations in one season. The appeal to researchers is obvious. They obtain data at a volume no funded team could collect alone, and across areas far wider than a research station can cover. {{blank:3}}, the benefits run in both directions: participants consistently report a better grasp of how evidence is gathered and why it is uncertain. {{blank:4}}, the approach has its critics, and their central objection is data quality. Volunteers differ widely in training, and an enthusiastic observer may record a rare species that was never there. {{blank:5}}, most large projects now build in verification: photographs are required, records are cross-checked against known ranges, and statistical models weight observations by an observer's track record. {{blank:6}}, citizen science is best understood not as a cheap substitute for professional research, but as a distinct method with strengths a laboratory cannot reproduce.

Question Type: matching_unique

42. Choose the best option for gap 1.

- A. However
- B. In fact
- C. For instance
- D. Ultimately
- E. Thanks to
- F. In response
- G. Crucially
- H. In particular

Answer: B

Question Type: matching_unique

43. Choose the best option for gap 2.

- A. However
- B. In fact
- C. For instance
- D. Ultimately
- E. Thanks to
- F. In response
- G. Crucially
- H. In particular

Answer: E

Question Type: matching_unique

44. Choose the best option for gap 3.

- A. However
- B. In fact
- C. For instance
- D. Ultimately
- E. Thanks to
- F. In response
- G. Crucially
- H. In particular

Answer: G

Question Type: matching_unique

45. Choose the best option for gap 4.

- A. However
- B. In fact
- C. For instance
- D. Ultimately
- E. Thanks to
- F. In response
- G. Crucially
- H. In particular

Answer: A

Question Type: matching_unique

46. Choose the best option for gap 5.

- A. However
- B. In fact

- C. For instance
- D. Ultimately
- E. Thanks to
- F. In response
- G. Crucially
- H. In particular

Answer: F

Question Type: matching_unique

47. Choose the best option for gap 6.

- A. However
- B. In fact
- C. For instance
- D. Ultimately
- E. Thanks to
- F. In response
- G. Crucially
- H. In particular

Answer: D

Part: Reading 3

Section: Reading

Reading Passage:

A - Library: extended opening From 12 May until the end of the examination period, the main library will open at 07:00 and close at 02:00 daily, including weekends. Group study rooms may be booked online up to seven days in advance; bookings not claimed within fifteen minutes will be released. Silent study is enforced on floors 4 and 5. Hot food may not be brought into the building. B - Academic Writing Centre The centre offers free one-to-one appointments of thirty minutes with a writing tutor. Bring a printed draft and a copy of the assignment brief. Tutors will discuss structure, argument and referencing, and will help you identify recurring language errors - but they do not proofread, and they will not predict a grade. Appointments open each Monday at 09:00 and are usually taken within the day. C - Careers Fair Over ninety employers will attend this year's fair in the Sports Hall on 3 June, 10:00-16:00. No registration is needed. Students are advised to bring printed copies of their CV; a free CV review desk will operate near the entrance until 14:00. Employers in engineering, health and financial services are represented most heavily this year. D - Accommodation Office Applications for university housing for the next academic year close on 30 June. Late applications are considered only if rooms remain. Students wishing to remain in their current room must apply again; rooms are not renewed automatically. The office can also advise on private rented housing and will check a tenancy agreement before you sign it.

Question Type: matching_reusable

48. Which text explains where you can get feedback on a draft before submitting it?

- A. Library: extended opening
- B. Academic Writing Centre

C. Careers Fair

D. Accommodation Office

Answer: B

Question Type: matching_reusable

49. Which text warns that a service will not be continued automatically?

A. Library: extended opening

B. Academic Writing Centre

C. Careers Fair

D. Accommodation Office

Answer: D

Question Type: matching_reusable

50. Which text states a time limit after which a reservation is cancelled?

A. Library: extended opening

B. Academic Writing Centre

C. Careers Fair

D. Accommodation Office

Answer: A

Question Type: matching_reusable

51. Which text says that attendance requires no advance booking?

A. Library: extended opening

B. Academic Writing Centre

C. Careers Fair

D. Accommodation Office

Answer: C

Question Type: matching_reusable

52. Which text tells you a document will be checked on your behalf before you commit to it?

A. Library: extended opening

B. Academic Writing Centre

C. Careers Fair

D. Accommodation Office

Answer: D

Question Type: matching_reusable

53. Which text sets out a restriction on what you may bring into the building?

A. Library: extended opening

B. Academic Writing Centre

C. Careers Fair

D. Accommodation Office

Answer: A

Question Type: matching_reusable

54. Which text advises bringing multiple copies of a document with you?

A. Library: extended opening

B. Academic Writing Centre

C. Careers Fair

D. Accommodation Office

Answer: C

Part: Reading 4

Section: Reading

Reading Passage:

The rebound effect When a technology becomes more efficient, the intuitive expectation is that it will consume less. A refrigerator that uses half the electricity of its predecessor should, on that reasoning, halve the household's cooling bill. Economists have known for over a century that this expectation is frequently disappointed, and the reason has a name: the rebound effect. The mechanism is not mysterious. Efficiency lowers the cost of using a service, and when something becomes cheaper, people tend to use more of it. A driver who replaces an old car with one that travels twice as far on a litre of fuel has, in effect, halved the price of a kilometre - and may respond by driving further, or by moving further from work. The saving is not eliminated, but part of it is spent rather than banked. Economists call this the direct rebound. The indirect rebound is harder to see and harder to measure. Money not spent on fuel does not vanish; it is spent on something else, and that something else has an energy cost of its own. A household that saves two hundred pounds a year on heating and spends it on a short flight may end the year having increased its emissions. At the level of a whole economy the effect compounds further: cheaper energy services make energy-intensive production more attractive, which is one reason the enormous efficiency gains of the industrial era were accompanied by rising, not falling, total consumption. The size of the effect is disputed, and the dispute matters. Most estimates for household energy in wealthy countries put direct rebound somewhere between ten and thirty per cent - meaning the majority of the intended saving is still realised. A minority of researchers argue that once economy-wide effects are included, rebound can approach or even exceed one hundred per cent, a proposition known as backfire. Backfire remains contested, and the evidence for it at national scale is thin. What follows for policy is less that efficiency fails than that it rarely works alone. Where efficiency lowers the cost of a service, a carbon price or a tax can hold that cost steady, allowing the technical gain to be kept rather than spent. Efficiency standards paired with pricing consistently outperform either instrument used by itself. The lesson is not that we should stop making things more efficient. It is that efficiency changes what a service costs, and people notice prices.

Question Type: mcq_single

55. According to the passage, the rebound effect occurs mainly because efficiency -

A. makes a service cheaper to use

B. requires expensive new equipment

C. is usually overstated by manufacturers

D. reduces the quality of the service

Answer: A

Question Type: mcq_single

56. The example of the driver is used to illustrate -

- A. indirect rebound
- B. direct rebound
- C. backfire
- D. the failure of efficiency standards

Answer: B

Question Type: mcq_single

57. What does the passage say about the household that saves on heating?

- A. It will always reduce its total emissions
- B. It typically saves the money rather than spending it
- C. Its overall emissions may rise despite the saving
- D. Its saving is cancelled out by higher heating costs later

Answer: C

Question Type: mcq_single

58. How does the writer treat the idea of backfire?

- A. As the established consensus among economists
- B. As a minority position that is not well supported
- C. As proof that efficiency policy should be abandoned
- D. As a phenomenon confined to household energy use

Answer: B

Question Type: mcq_single

59. It can be inferred from the final paragraph that the writer would most likely support -

- A. replacing efficiency standards with carbon pricing
- B. combining efficiency standards with carbon pricing
- C. removing taxes on energy-efficient products
- D. delaying efficiency standards until rebound is fully understood

Answer: B

Question Type: mcq_single

60. The writer's main purpose in the passage is to -

- A. warn that efficiency measures are ineffective and should be replaced
- B. explain a well-documented effect and what it implies for policy
- C. compare energy consumption in wealthy and developing economies
- D. argue that economists have misunderstood household behaviour

Answer: B
